## INDEPENDENT AUDITOR'S REPORT

August 20, 2025

To the Board of Supervisors of the  
County of Madison, New York

### Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Madison, New York (the County), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County, as of December 31, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## INDEPENDENT AUDITOR'S REPORT

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

## INDEPENDENT AUDITOR'S REPORT

(Continued)

### **Auditor's Responsibilities for the Audit of the Financial Statements (Continued)**

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, Schedule of Changes in Total OPEB Liability and Related Ratios, Schedule of Proportionate Share of Net Pension Liability (Asset), and Schedule of Contributions – Pension Plans be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and nonmajor governmental and special revenue fund financial statements and the Schedule of Expenditures of Federal Awards as required by Title 2 U.S. *Code of Federal regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor governmental and special revenue fund financial statements and Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 20, 2025, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

# COUNTY OF MADISON, NEW YORK

## MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

---

As management of the County of Madison, New York (the County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County as of and for the fiscal year ended December 31, 2024.

### **Overview of Financial Statements**

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements.

### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private sector business.

The Statement of Net Position presents information on all of the County's assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods such as uncollected taxes and earned but unused vacation leave.

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental Funds**

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

## Fund Financial Statements (Continued)

The County maintains nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, County Road and the Capital Projects Funds, which are considered to be major funds. Data from the other six governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the Supplementary Information section of the financial statements.

- **Proprietary Funds**

- **Enterprise Funds** - account for those operations that are financed and operated in a manner similar to private business. The County's major enterprise fund is the Environmental Landfill Fund.
- **Internal Service Funds** - account for activities that provide goods or services to other funds, departments or agencies of the primary government, or to other governments, on a cost-reimbursement basis. The County reports a Self-Insured Health Insurance Internal Service Fund.

## Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## Component Units

The government-wide financial statements include the primary government, the County, as well as its component unit, the Madison County Industrial Development Agency. Financial information for this entity is reported separately from the financial information presented for the primary government itself.

## Government-Wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets/deferred outflow of resources of the County's governmental activities exceeded liabilities/deferred inflow of resources by \$86,417,044 at the close of 2023.

### Governmental Activities

- Revenues increased approximately \$4.2 million in the current year mainly due to an increase in property tax collections.
- Expenses increased approximately \$12 million in the current year.

### Business-Type Activities

- Revenues increased by approximately \$0.7 million. This was mainly due to an increase in charges for services.
- Expenses decreased by approximately \$0.8 million. This was mainly due to a decrease in contractual expenses.

## General Fund Financial Analysis

### General Fund Budget Analysis

#### Revenues

- Revenues (including intrafund revenues) were originally budgeted at \$132,956,742 while actual was \$147,136,498. Revenues came in over budget mainly due to federal aid, which had revenues \$8,277,479 greater than budget.

#### Expenditures

- Expenditures (including transfers out and intrafund expenditures) were originally budgeted at \$141,869,114 while actual was \$141,520,440.

## Capital Assets and Debt Administration

### Capital Assets

The County's investment in capital assets (including right to use lease assets) for its governmental activities as of December 31, 2024 amounted to \$159,615,627 (net of accumulated depreciation and amortization). The amount for business-type activities at December 31, 2024 is \$12,307,390. This investment in capital assets includes land, buildings and systems, improvements, machinery and equipment, roads, highways and bridges.

## COUNTY OF MADISON, NEW YORK

### Reconciliation of the Statement of Revenues, Expenditures and Change in Fund Balances - Governmental Funds to the Statement of Activities For the Year Ended December 31, 2024

---

Net change in fund balances - governmental funds \$ 3,551,137

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the statement of activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation or amortization expense for the period.

Capital outlays	11,601,533
Depreciation and amortization	<u>(8,756,846)</u>
	2,844,687

Losses from the disposition of capital assets are not recorded on the fund financial statements but are recorded on the government-wide financial statements. (7,491,672)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds. 2,047,262

Proceeds from capital leases and subscription-based information technology arrangements (SBITAs) is an other financing source in the governmental funds, but the proceeds increase long-term liabilities in the statement of net position. (1,531,392)

Principal payments on debt service are reported as an expenditure in the governmental funds, and therefore reduces fund balance because current financial resources have been used. These payments are not an expense in the statement of 2,738,678

Compensated absences are reported in the statement of activities, but do not require the use of current financial resources and, therefore, these are not reported as expenditures in governmental funds. This represents the current year change. 592,868

Termination benefits are reported in the statement of activities, but do not require the use of current financial resources and, therefore, these are not reported as expenditures in governmental funds. This represents the current year change. (1,176,079)

Other postemployment benefits liability and associated deferred outflows are included in the statement of activities, but are not reported as expenditures in the governmental funds. The following represents the current year changes:

Other postemployment benefits	(4,451,534)
Deferred outflows of resources	556,217
Deferred inflows of resources	1,925,326

Net pension liability/asset and associated deferred inflows and outflows are included in the statement of activities, but are not reported as expenditures in the governmental funds. The following represent the current year changes:

Net pension asset/liability	9,351,711
Deferred outflows of resources	(2,699,329)
Deferred inflows of resources	<u>(9,159,413)</u>

Change in net position of governmental activities \$ (2,901,533)

### **NOTES TO BASIC FINANCIAL STATEMENTS** **DECEMBER 31, 2024**

#### **1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

##### **Financial Reporting Entity**

The County of Madison, New York (the County), which was incorporated in 1806, is governed by County Law and other general laws of the State of New York and various local laws. The Board of Supervisors, which is the legislative body responsible for the overall operations of the County, consists of nineteen members with each member's vote weighted on the basis of population in the town or district represented. The Chairman of the Board of Supervisors serves as the Chief Executive Officer. The County Treasurer serves as the Chief Fiscal Officer and Budget Officer.

The basic services provided are highway maintenance, social services, health services, public safety, cultural and recreational programs, and certain administrative and other services.

All governmental activities and functions performed for Madison County are its direct responsibility. No other governmental organizations have been included or excluded from the reporting entity.

The financial reporting entity consists of (a) the primary government which is Madison County, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete as set forth by standards set by the Governmental Accounting Standards Board (GASB).

##### **Component Units**

The decision to include a potential component unit in the County's reporting entity is based on several criteria set forth by the GASB including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief review of certain entities considered in determining the County's reporting entity.

The Madison County Industrial Development Agency (IDA or Agency) is a public benefit corporation created by the State Legislature to promote the economic welfare, recreation opportunities, and property of the inhabitants of the County. Members of the Agency are appointed by the County Board of Supervisors and the County has the ability to impose its will and significantly influence the IDA. Agency members have complete responsibility for management of the Agency and accountability for fiscal matters. The County is not liable for Agency bonds and exercises no oversight responsibility. The IDA is a component unit of the County, and is discretely presented.

Complete financial statements of the Madison County Industrial Development Agency may be obtained from its administrative office:

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Basis of Presentation

- **Government-wide Financial Statements**

The government-wide financial statements (the Statement of Net Position and the Statement of Activities) concentrate on the County as a whole and do not emphasize fund types but rather governmental and business-type activities classification, which are presented separately. The governmental activities and business-type activities comprise the primary government and are reported separately from the discretely presented component units of the County. General governmental and intergovernmental revenues support the governmental activities, whereas the business-type activities are primarily supported by user fees and charges for services.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources to those funds are not available to support the County's own programs.

The Statement of Activities reflects the expenses of a given function or segment and the extent they are offset by program revenue. Program revenue is defined as charges for services, operating grants and contributions, and capital grants and contributions, directly associated within a given function. Taxes and other revenues not associated with a specific function are reported as general revenue.

The effect of interfund activity has been removed from the government-wide financial statements.

- **Fund Financial Statements**

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Non-major funds by category are summarized into a single column. Generally accepted accounting principles sets forth minimum criteria (percentage of the assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds.

- Governmental Funds - Governmental funds are those major and non-major funds through which most governmental functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus of the governmental funds is upon determination of financial position and changes in financial position using the modified accrual basis of accounting. The following are the County's governmental fund types:

- A. Major Governmental Funds:

General Fund - the principal operating fund and includes all operations not accounted for and reported in another fund.

Capital Projects Fund - used to account for financial resources to be used for the acquisition, construction or renovation of capital facilities other than those financed by the enterprise funds.

County Road Fund - special revenue fund used to account for expenditures for highway purposes authorized by Section 114 of Highway Law.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Basis of Presentation (Continued)**

- **Fund Financial Statements (Continued)**

- B. Non-major Governmental Funds

Other funds which do not meet the major fund criteria are aggregated and reported as non-major governmental funds. The following are reported as non-major governmental funds:

Debt Service Fund - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest on general obligation long-term debt. Debt service funds are used when legally mandated and for financial resources accumulated in a reserve for payment of future principal and interest on long-term indebtedness. The Debt Service Fund is presented as a non-major fund.

Special Revenue Funds - used to account for taxes, user fees, or other revenues, which are raised or received to provide special services to areas that may or may not encompass the whole County. The following are non-major special revenue funds utilized by the County:

Community Development Fund - used to account for grants which are furnished by the U.S. Department of Housing and Urban Development for various Community Development Projects.

Cowaselon Creek Watershed Protection District Fund - used to account for maintenance and preservation of the Cowaselon Creek watershed district.

Law Enforcement Trust Fund - used to account for proceeds of drug activities that are seized and/or forfeited and used solely for drug enforcement.

Road Machinery Fund - used to account for the purchase, repair, maintenance and storage of highway machinery, tools and equipment pursuant to Section 133 of the Highway Law.

Water District Fund - used to account for taxes or other revenues which are raised or received to provide special services to an area that encompasses less than the entire County.

- Proprietary Funds - These funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when liabilities are incurred. Proprietary funds of the County include the following fund types:

- A. Enterprise Funds - used to account for those operations that are financed and operated in a manner similar to private business. The County reports the following Enterprise Fund:

Environmental Landfill Fund - used to account for the financial activities of the County's landfill. The Environmental Landfill Fund is recognized as a major fund.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Basis of Presentation (Continued)

#### • Fund Financial Statements (Continued)

B. Internal Service Funds - used to account for activities that provide goods or services to other funds, departments or agencies of the primary government, or to other governments, on a cost-reimbursement basis. The County reports the following Internal Service Fund:

Self-Insurance Fund - used to account for the financial activities of a Workers' Compensation Insurance Public Entity Risk Pool, as well as the County's self-insured health insurance plan.

- Fiduciary Funds - The County's fiduciary funds are presented in the fiduciary fund financial statements by type. Since by definition these assets are being held for the benefit of a third-party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide financial statements. These funds are used to account for assets held by the local government in a trustee or custodial capacity. The following is reported as the County's fiduciary fund:

Custodial Fund - used to account for money and/or property received and held in a purely custodial capacity of the trustee, custodian or agent.

### Basis of Accounting/Measurement Focus

#### • Accrual

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the County gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year in which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

#### • Modified Accrual

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they are deemed measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within one year after the end of the fiscal year, except for real property taxes receivable, which use a 60-day available period.

Material revenues that are accrued include real property taxes, state and federal aid, distributed sales taxes, certain user charges, and some departmental fees. If expenditures are the prime factor for determining eligibility, revenues from federal and state grants are accrued when the expenditure is made.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Basis of Accounting/Measurement Focus**

- **Modified Accrual**

Expenditures are recorded when incurred except that:

- A. Principal and interest on indebtedness are not recognized as an expenditure until due and paid.
- B. Compensated absences, such as vacation and compensatory time which vests or accumulates, are charged as an expenditure when paid.
- C. Net pension liability is charged as an expenditure when paid.
- D. Other post-employment benefits are charged as an expenditure when paid.

### **Cash and Cash Equivalents**

Cash equivalents consist primarily of demand deposits, money market accounts and cash in external investment pools. The County considers cash and cash equivalents in proprietary funds to be cash on hand, demand deposits and cash equivalents with original maturities of 90 days or less.

### **State and Federal Receivables and Accounts Receivable**

These accounts include reimbursement claims for various grant-in-aid programs from State and Federal agencies. An allowance for doubtful accounts is recorded related to accounts receivable in the Environmental Landfill Fund of \$12,841 at December 31, 2024. Management does not believe an allowance for doubtful accounts is necessary for any other receivable balances.

### **Opioid Settlement Receivables**

Beginning in 2021, New York State and participating counties entered into settlement agreements with several opioid manufacturers and distributors. These agreements will provide the County with future revenues, portions of which will be restricted for use in combating the opioid crisis through treatment and prevention programs. As of December 31, 2024, the County's receivable related to these settlements is \$3,546,800. At the fund level, this amount is offset by deferred inflows of resources in the same amount. Although measurable, these amounts are not available and therefore revenue will not be recorded under the modified accrual basis of accounting. At the government-wide level, receivables are recognized in the year the settlements were reached and finalized. Of the total \$3,546,800 receivable, \$3,281,720 is not expected to be received within one year.

### **Prepaid Expense/Expenditures**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements, as applicable.

### **Inventories**

The County uses the purchase method of accounting for inventories. At the end of the period, material and supplies inventories are taken and significant inventories are recorded as an asset with an offset to reserve for inventories referred to as nonspendable fund balance. Inventories are valued at cost using the first-in, first-out (FIFO) method.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Deferred Outflows/Inflows of Resources**

In addition to assets and liabilities, the Statement of Net Position and Balance Sheet will sometimes report a separate section for deferred outflows/inflows of resources. The separate financial statement element, deferred outflows of resources, represents a use of resources that applies to a future period and so will be not recognized as an outflow (expense/expenditure) until then. The separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then. In the governmental funds, deferred inflows of resources will include amounts related to unearned revenue and amounts related to property taxes in the General Fund. In the government-wide financial statements, deferred outflows and inflows of resources also relate to pension and other postemployment benefits obligations and are further described in Note 10 and 11.

Lease-related amounts are recognized at the inception of leases in which the County is the lessor. The deferred inflow of resources is recorded in an amount equal to the corresponding lease receivable plus certain additional amounts received from the lessee at or before the commencement of the lease term that relate to future periods, less any lease incentives paid to, or on behalf of, the lessee at or before the commencement of the lease term. The inflow of resources is recognized in a systematic and rational manner over the term of the lease.

### **Long-Term Liabilities**

Long-term liabilities represent the County's future obligations or future economic outflows. The liabilities are reported as due within one year or due in more than one year in the government-wide statements.

### **Compensated Absences**

Under the terms of the personnel policies and union contracts, County employees, other than elected officials, are granted personal, vacation and sick leave credits and may accumulate these credits as follows:

*Personal Leave* – Employees are granted between three and five days personal leave each year depending on their contracts, coverage, and hiring date. At December 31 of each year, all unused personal leave is converted to sick leave. Employees are not paid for the value of their unused personal leave credits upon termination.

*Sick Leave* – Employees are granted sick leave credits ranging from one-half day per month to one day per month, depending on their contracts and hiring date. All covered employees are allowed to accumulate up to 165 days of sick leave credits, except those in the White Collar Bargaining Unit and those covered by the Management Compensation Plan, who are allowed to accumulate up to 200 days of sick leave. Depending on contract and hiring date, employees are allowed to buy-back sick leave credits. The buy-back of sick leave credits is limited to those days in excess of 100 days accumulated and may not exceed 30 days of buy-back credits. In addition, the benefit buy-back is paid at 50% of the employee's current hourly rate. Employees at termination, except those in the Management Compensation Plan, with at least 10 years of service, are compensated from a minimum of between 10 and 20 days of accumulated sick leave and as many as between 20 and 60 days depending on contract and length of service.

*Vacation Leave* – Employees are granted vacation leave credits ranging from 10 days to 20 days depending on contract and years of service. The maximum accumulation per employee is 40 days. Full time employees, except those in the Nurses Bargaining Unit, may receive up to 30 days' pay in lieu of vacation time. Employees receive payment at termination from 10 days to 40 days of vacation leave credits depending on contract and years of service.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Termination Benefits

Most employees in the Management Compensation Plan receive additional termination benefits ranging from two weeks to ten weeks depending on years of service, up to a maximum of \$30,000 upon termination for any reason except discharge.

### Capital Assets

All capitalized assets are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly increase the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are not reported in the governmental funds and additions are recorded as expenditures.

Standard capitalization thresholds for capitalizing assets have been established for each major class of assets as summarized below:

<u>Class of Asset</u>	<u>Threshold</u>
Land	All Aggregate Costs
Construction in Progress	
Buildings (includes building improvements)	\$ 20,000
Improvements (other than buildings)	\$ 10,000
Infrastructure	\$ 50,000
Machinery and Equipment	\$ 10,000

Depreciation on all assets is provided on a straight-line basis over the following estimated useful lives:

<u>Class of Asset</u>	<u>Threshold</u>
Land	Not depreciable
Construction in Progress	Not depreciable
Buildings (includes building improvements)	25-50 years
Improvements (other than buildings)	15-20 years
Infrastructure	10-65 years
Machinery and Equipment	5-30 years

Capital assets also include lease assets and SBITAs with a term greater than one year. The County does not implement a capitalization threshold for lease assets or SBITAs. Lease assets and SBITAs are amortized on a straight-line basis over the term of the lease or arrangement.

### Operating and Non-operating Revenues and Expenses

The County distinguishes between operating revenues and expenses from non-operating items. Operating revenues are comprised of charges for services while non-operating revenues include state and federal aid and miscellaneous sources. Operating expenses are the result of operating the landfill and contractual charges in the Self-Insurance Fund. Non-operating expenses include interest expense and transfers.

### Equity Classifications

#### • Government-Wide Statements

Equity is classified as net position and displayed in three components:

- Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings, or accounts payable and other liabilities that are attributable to the acquisition, construction, or improvement of those assets.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Equity Classifications (Continued)**

#### **• Government-Wide Statements (Continued)**

- Restricted net position - consists of net position with constraints placed on the use either by: 1) external groups such as creditors, grantors, contributors, or laws or regulations for other governments; or 2) law through constitutional provisions or enabling legislation.
- Unrestricted net position - all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

The County's policy is to use restricted resources prior to utilizing unrestricted funds.

#### **• Fund Balance**

Accounting standards generally accepted in the United States provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

##### **○ Nonspendable Fund Balances**

These are amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. Nonspendable fund balance is comprised of prepaid assets and inventory.

##### **○ Restricted Fund Balances**

These are amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. Significant restricted balances in the General Fund are for the retirement contributions reserve and building improvement reserve in the amounts of \$810,585 and \$3,160,371, respectively, at December 31, 2024.

##### **○ Committed Fund Balances**

These are amounts that can be used only for specific purposes determined by a formal action of the Board of Supervisors prior to year-end. The Board of Supervisors is the highest level of decision-making authority for the County. Commitments may be established, modified, or rescinded only through resolutions approved by the Board of Supervisors. Committed fund balances reported in special revenue funds are committed for the purposes of those funds.

##### **○ Assigned Fund Balances**

These are amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes, or positive remaining fund balance in a fund other than General Fund. It is at the discretion of the Board of Supervisors or its designee to make assignments as it sees fit. At December 31, 2024, assigned fund balance in the General Fund of \$6,984,660 is comprised of \$86,908 of encumbrances and \$6,897,752 for appropriated amounts in the 2025 budget.

##### **○ Unassigned Fund Balances**

These are amounts within the General Fund that do not meet the definition of the above four classifications and are deemed to be available for general use by the County. In addition, any remaining negative fund balance for funds other than the General Fund is considered unassigned fund balance.

## **1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

### **Equity Classifications (Continued)**

#### **• Fund Balance (Continued)**

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Supervisors has provided otherwise in its commitment or assignment actions.

### **Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates and such differences may be significant.

## **2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

### **Budget Policies**

The County's budget policies are as follows:

1. No later than November 15, the Budget Officer submits a tentative budget to the Board of Supervisors for the fiscal year commencing the following January 1. The tentative budget includes proposed expenditures and the proposed means of financing for the General, Part County Watershed Protection District, County Road, Road Machinery, Enterprise Environmental Landfill, Part County Sewer District and Debt Service funds.
2. After public hearings are conducted to obtain taxpayer comments, the Board of Supervisors generally makes, by resolution, modifications to the tentative budget and adopts the budget no later than December 20.
3. Most modifications of the budget must be approved by the Board of Supervisors. The Board has authorized transfers of immaterial amounts within department budget line items by coordination of the County Administrator or Finance Director, Budget Officer, and the department head. Revisions that alter the total appropriation of any department or fund are approved by resolution of the Board of Supervisors.
4. Budgetary controls are established for the Capital Projects Fund through resolutions establishing the projects. These controls remain in effect throughout the life of the project.
5. A budget is prepared for the Enterprise Environmental Landfill Fund to establish the estimated contributions required from other funds and to control expenditures.
6. Appropriations in all budgeted funds lapse at the end of the fiscal year, with the exception of the Capital Projects Fund, and outstanding encumbrances that are re-apportioned in the subsequent year.

## **3. PROPERTY TAXES AND COLLECTION**

County real property taxes are levied annually, no later than December 31 of each year for the following fiscal year, and become a tax lien on January 1. For fiscal year 2024, the County's real property tax levy (for county-wide purposes) was \$47,089,326 and the composite tax rate was \$7.949233 per \$1,000 of taxable value.

### **3. PROPERTY TAXES AND COLLECTION (Continued)**

Taxes are collected by the town tax collectors during the period January 1 to the expiration of their warrant, which is generally April 30. No later than May 10, the delinquent taxes are returned by the tax collectors to the County Treasurer for the enforcement of the collection of the delinquent tax. Taxes for County purposes are levied together with taxes for town and special district purposes as a single tax bill. The towns and special districts receive the full amount of their levies annually out of the first amounts collected on the combined tax bill. The collection of County taxes levied on properties within the City of Oneida is enforced by the City, and the County receives the full amount of such taxes from the City within the year of the levy.

The County guarantees the real property tax levies of the towns, villages and school districts located within the County, except city school district taxes on property located within the City of Oneida. The County guarantees the Oneida City School District taxes in the Towns of Lenox and Lincoln upon payment or tax foreclosure. At December 31, 2024, the County reflected liabilities to the non-city school districts of \$4,716,142, the city school district of \$45,378 and the villages of \$363,005, for amounts of real property taxes that the County had assumed responsibility for collecting. The County will pay the respective school districts and villages the amounts owed by April 1, and these are included in the amounts due to other governments in the accompanying financial statements. Any such taxes remaining unpaid at year-end are relieved as County taxes on December 31.

At December 31, 2024, the total net real property taxes receivable was \$7,367,082 (after deduction of an allowance for uncollectible taxes of \$870,000).

### **4. TAX ABATEMENTS**

As of December 31, 2024, the County tax abatement programs include abatements on property taxes, sales taxes and mortgage recording taxes. All abatement agreements are made by various area industrial development agencies, cities and townships.

All property tax abatements are performed through Payments in Lieu of Taxes (PILOT) agreements made by various area industrial development agencies, cities and townships. The PILOT agreements are made to support manufacturing, utilities and other purposes. Total amounts received from PILOT agreements in each of these categories for the year ended December 31, 2024 are as follows:

Manufacturing	\$ 141,563
Housing	64,347
Solar	24,004
Other	<u>72,969</u>
 Total	 <u>\$ 302,883</u>

PILOT agreements entered into by various area industrial development agencies, cities and townships abated \$599,434 of County property taxes in 2024.

### **5. SALES AND USE TAX**

The County of Madison receives 4% local sales and use tax on all collections in the County. For sales and use tax imposed inside the City of Oneida, the County receives its 2% share from the State of New York. For sales and use tax imposed outside the City of Oneida, the County receives 4% local sales and use tax and by State statute, must share 50% of this gross sales tax with towns or villages within the County.

## **5. SALES AND USE TAX (Continued)**

The towns' and villages' 50% share is distributed to each municipality based on the percentage each contributes toward the annual County tax levy. Nine villages and two towns have opted to receive their sales tax distribution as a direct payment and can use the sales tax revenue for any purpose. The other one village and 13 townships, by State statute, must first have their sales tax distribution used to reduce their respective County taxes based on the percentage each contributes to the annual County tax levy. Any sales tax surplus at the end of the year is used to reduce the ensuing year's town tax rates.

On June 1, 2004, the County increased its local sales and use tax from 3% to 4%. In 2007, 2009, 2011, 2013, 2015, 2017, 2020, 2023 and again in 2024, the County extended the additional 1% sales and compensating use tax. The current County sales and use tax legislation is scheduled to expire on November 30, 2027, at which time it must be rescinded, amended or renewed.

The sales tax portion of the General Fund's non-property tax items amounted to \$41,599,224 in 2024 of which \$17,417,302 was distributed to towns and villages to decrease County and town tax rates. At December 31, 2024, sales tax due to towns and villages amounted to \$12,311,162 and this governmental activities and general fund liability is included in "Due to other governments" in the accompanying basic financial statements.

The County recognized as sales tax revenue the entire 4% while the subsequent payments to the towns and villages are recognized as general governmental expenditures in the General Fund.

## **6. CASH, CASH EQUIVALENTS AND INVESTMENTS**

The County currently follows an investment and deposit policy as directed by State statutes, the overall objective of which is to adequately safeguard the principal amount of funds invested or deposited; conformance with federal, state and other legal requirements; and provide sufficient liquidity of invested funds in order to meet obligations as they become due. Oversight of investment activity is the responsibility of the County Treasurer.

### **Interest Rate Risk**

Interest rate risk is the risk that the fair value of investments will be affected by changing interest rates. The County's investment policy, governed by the State statutes, does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

### **Custodial Credit Risk**

Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned to it. While the County does not have a specific policy for custodial credit risk, New York State statutes govern the County's investment policies. As of December 31, 2024, \$44,238,776 of the County's deposits (not including investments in external investment pools) were exposed to custodial credit risk and collateralized by pledged securities held by the pledging banks' trust departments in the County's name.

The County does not have any foreign currency investments, securities lending agreements, or derivative instruments.

### **Restricted Cash**

The County reports restricted cash amounts related to reserves, as well as unspent debt proceeds restricted for use in capital projects.

## 6. CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

### External Investment Pools

At December 31, 2024, the County's cash and cash equivalents included amounts with a fair value of \$9,312,264 invested in NY MuniTrust, an external investment pool for local governments in New York State.

MuniTrust measures its investments at fair value in accordance with Paragraph 41 of Statement 79 and Paragraph 11 of Statement 31, and therefore a Participant's investments in the pools are not required to be categorized within the fair value hierarchy for purposes of Paragraph 81a(2) of Statement 72.

MuniTrust is rated by S&P Global Ratings. The current rating is 'AAAm.' The dollar weighted average days to maturity (WAM) of MuniTrust at December 31, 2024, is 39 days. Next interest rate reset dates for floating rate securities are used in the calculation of the WAM. The weighted average life (WAL) of MuniTrust at December 31, 2024, is 75 days.

### Fair Value of Investments

The County categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The County did not have any investments that are measured using Level 2 or Level 3 inputs.

Fair value measurements of the County's investments at December 31, 2024 comprised U.S. Government Agency Treasury Bills valued at \$28,265,515, based on quoted market prices (Level 1 inputs).

The County also holds certificates of deposit, which are non-participating interest-earning investment contracts and are reported at amortized cost. At December 31, 2024, these amounted to \$15,566,135 and are reported as cash equivalents.

## 7. INTERFUND BALANCES

### Interfund Transactions

Transfers among funds are provided for as part of the annual budget process. Interfund transfers for the year ended December 31, 2024, which were routine in nature, were as follows:

## 9. LOANS RECEIVABLE

### **Housing and Urban Development (HUD) Loans**

The Community Development Fund provides loans for mortgage assistance in a program funded by HUD. Loans are forgiven provided the recipient fulfills certain requirements and therefore, there are no future payments scheduled and these balances are reported as accounts receivable. At December 31, 2024, the receivable balance related to this program is \$70,104 and there is an offsetting unearned revenue liability reported in both the Community Development Fund and governmental activities.

### **New York Main Street Loans**

The Community Development Fund provides loans for mortgage assistance in a program funded by New York State for Main Street properties. Loans are forgiven provided the recipient fulfills certain requirements and therefore, there are no future payments scheduled and these balances are reported as accounts receivable. At December 31, 2024, the receivable balance related to this program is \$95,462 and there is an offsetting unearned revenue liability reported in both the Community Development Fund and governmental activities.

### **Community Development Block Grant (CDBG) Revolving Loans**

The Community Development Fund provides loans as part of a revolving loan program funded by CDBG. At December 31, 2024, the receivable balance related to this program is \$34,292 and there is an offsetting deferred inflow of resources for unavailable revenue reported in the Community Development Fund.

The loans receivable are to be repaid in monthly installments at interests rate of 4.25% - 4.50%. The following is a schedule of future loan payments to the County as of December 31, 2024:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2025	26,148	945	27,093
2026	6,478	234	6,712

Total	\$ 34,292	\$ 1,192	\$ 35,484

## 10. RETIREMENT PLANS

### **New York State Employees' Retirement System (NYSERS)**

The County participates in the New York State Employees' Retirement System (NYSERS) also referred to as New York State and Local Retirement System (the System). This is a cost-sharing, multiple employer public employee retirement system, providing retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), established to hold all net position and record changes in plan net position allocated to the System. System benefits are established under the provisions of the New York State Retirement and Social Security Law (NYS RSSL). Once an employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The System is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at [www.osc.state.ny.us/retire/publications/index.php](http://www.osc.state.ny.us/retire/publications/index.php) or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, New York 12244.

The System is noncontributory for the employees who joined prior to July 27, 1976. For employees who joined the Systems after July 27, 1976, and prior to January 1, 2010, employees contribute 3% of their salary, except that employees in the System more than ten years are no longer required to contribute. For employees who joined after January 1, 2010 and prior to April 1, 2012, employees in NYSERS contribute 3% of their salary throughout their active membership. For employees who joined after April 1, 2012, employees contribute 3% of their salary until April 1, 2013 and then contribute 3% to 6% of their salary throughout their active membership. The Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the System's fiscal year ending March 31.

Contributions for the current year and two preceding years were equal to 100 percent of contributions required, and were as follows:

<u>Year</u>	<u>Amount</u>
2024	\$ 5,888,154
2023	\$ 4,432,351
2022	\$ 3,710,074

### **Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions**

At December 31, 2024, the County reported a net pension liability of \$20,291,673 (\$19,516,628 in the governmental activities and \$775,045 in the business-type activities) for its proportionate share of the NYSERS net pension liability. The net pension liability was measured as of March 31, 2024, and the total pension asset used to calculate the net pension liability was determined by actuarial valuation as of April 1, 2023. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At December 31, 2024, the County's proportionate share was 0.1378131%.

For the year ended December 31, 2024, the County recognized pension expense of \$8,020,715 (\$7,714,362 in the governmental activities and \$306,353 in the business-type activities). At December 31, 2024, the County reported deferred outflows/inflows of resources related to pensions from the following sources:

### Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

The allocation of deferred inflows and outflows for the business-type activities at December 31, 2024 were as follows:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 249,641	\$ 21,133
Changes in assumptions	293,027	-

County contributions subsequent to the measurement date will be recognized in the year ended December, 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	<u>Gov't Activities Amount</u>	<u>Business-type Activities Amount</u>
2025	\$ (4,209,713)	\$ (167,176)
2026	3,192,224	126,770
2027	5,268,212	209,211

 Total	 <u>\$ 1,917,466</u>	 <u>\$ 76,145</u>

#### Actuarial Assumptions

The total pension liability at March 31, 2024 was determined by using an actuarial valuation as of April 1, 2023, with update procedures used to roll forward the total pension liability to March 31, 2024.

## 10. RETIREMENT PLANS (Continued)

### Actuarial Assumptions (Continued)

The actuarial valuation used the following actuarial assumptions:

Actuarial cost method	Entry age normal
Inflation	2.90%
Salary scale	4.40% indexed by service
Projected COLAs	1.50% compounded annually
Decremnts	Developed from the Plan's 2020 experience study of the period April 1, 2015 through March 31, 2020
Mortality improvement	Society of Actuaries' Scale MP-2021
Investment rate of return	5.9% compounded annually, net of investment expenses

The long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expect future real rates of return (expected returns, net of pension plan investment expense and inflation) for equities and fixed income as well as historical investment data and plan performance.

### Long-Term Expected Rate of Return

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of March 31, 2024 are summarized below:

<u>Asset Type</u>	<u>Target Allocations in %</u>	<u>Long-Term Expected Real Rate of Return in %</u>
Domestic equity	32	4.00
International equity	15	6.65
Private equity	10	7.25
Real estate	9	4.60
Opportunistic/Absolute Return Strategy	3	5.25
Credit	4	5.40
Real assets	3	5.79
Fixed Income	23	1.50
Cash	1	0.25
 Total	 100	

### Discount Rate

The discount rate used to calculate the total pension liability was 5.9%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## 10. RETIREMENT PLANS (Continued)

### **Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption**

The following presents the County's total proportionate share (including governmental activities and business-type activities) of the net pension liability calculated using the discount rate of 5.9%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower (4.9%) or 1% higher (6.9%) than the current rate:

	1% Decrease <u>(4.9%)</u>	Current Discount <u>(5.9%)</u>	1% Increase <u>(6.9%)</u>
Proportionate share of net pension liability (asset)	<u>\$ 63,799,094</u>	<u>\$ 20,291,673</u>	<u>\$ (16,046,049)</u>

### **Pension Plan Fiduciary Net Position (in Thousands)**

The components of the current-year net pension liability of the employers as of March 31, 2024 were as follows (amounts in thousands):

Total pension liability	\$ 240,696,851
Net position	<u>(225,972,801)</u>
Net pension liability (asset)	<u>\$ 14,724,050</u>
ERS net pension as a percentage of total pension liability	<u>93.88%</u>

## 11. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

### **Plan Description**

The County provides certain healthcare benefits for retired employees, their dependents and certain survivors. The County recognizes the cost of postemployment healthcare in the year when the services are received and reports the accumulated liability from prior years.

The County provides continuation of medical insurance coverage to eligible employees who retire directly into the New York State Retirement System, and to eligible elected officials who have attained at least 10 years of service to the County. The plan is a single employer, postemployment healthcare benefits plan. The retirees and their beneficiaries receive this medical coverage for the remainder of their lives.

### **Funding Policy**

The majority of employees do not contribute toward the cost of these post-employment benefits. However, the number of future retirees who contribute will continue to increase, as members of certain bargaining units and employees covered by the Management Compensation Plan will be required to contribute varying percentages based on their dates of hire. All retiree beneficiaries are required to contribute the full premiums for the respective plans. Actual medical claims paid on behalf of non-Medicare eligible retirees and their beneficiaries are self-funded by the County. Medicare eligible retirees and their beneficiaries are enrolled in a fully insured Medicare Advantage Plan. The County currently pays for postemployment healthcare benefits on a pay-as-you-go basis.

### **Total OPEB Liability**

The County's total OPEB liability was \$76,146,060 (\$73,237,644 in governmental activities and \$2,908,416 in the business-type activities), was measured as of December 31, 2024, and was determined by an actuarial valuation as of December 31, 2023.

### **Assets Accumulated in Trust**

As of the date of the financial statements, New York State did not yet have legislation that would enable government entities to establish a qualifying trust for the purpose of funding other post employment benefits. As such, there are no assets accumulated in a trust that meets all of the criteria in GASB Statement No. 75, Paragraph 4.

## 12. SHORT-TERM OBLIGATIONS

### **Bond Anticipation Notes**

Liabilities for bond anticipation notes (BANs) are generally accounted for in the Capital Projects Fund and the Enterprise Landfill Fund. Principal payments on BANs must be made annually. State Law requires that BANs issued for capital purposes be converted to long-term obligations within five years after the original issue date. However, BANs issued for assessable improvement projects may be renewed for periods equivalent to the maximum life of the permanent financing, providing that annual reductions of principal are made.

Short-term bond anticipation note payable detail as of December 31, 2024 and activity for the year ended in the Capital Projects Fund, was as follows:

		Interest					Ending
<u>Issued</u>	<u>Maturity</u>	<u>Rate</u>	<u>Beginning</u>	<u>Issued</u>	<u>Deletions</u>	<u>Balance</u>

### 13. LONG-TERM LIABILITIES

#### Bonds

The County borrows funds on a long-term basis for the purpose of financing acquisition of equipment and construction of buildings and improvements. This policy enables the cost of capital assets to be borne by the present and future taxpayers receiving the benefit of the capital assets. These long-term obligations represent a reconciling item between the fund and government-wide statements. Interest expense for governmental activities related to long-term obligations for the year ended December 31, 2024 was \$762,862. Detail relating to general obligation bonds of the County, outstanding at December 31, 2024, is summarized as follows:

### 13. LONG-TERM LIABILITIES (Continued)

#### Loan Payable - EFC Financing

The County received interest-free financing from the New York State Environmental Facilities Corporation (EFC) in the amount of \$3,310,000 to finance a Sewer Pipeline Project in the Enterprise Landfill Fund. In 2018, the loan was converted into a long-term obligation at the completion of the project. The County's direct borrowings with NYSEFC contain a provision that in the event of default, NYSEFC may take whatever action at law or in equity may appear necessary or desirable to remedy such default. These remedies include, but are not limited to, mandatory redemption, acceleration, requiring the County to immediately redeem the bonds in whole together with all other sums due to NYSEFC. The County may also owe to NYSEFC interest accrued on the overdue balance. At December 31, 2024, principal payments are due as follows:

<b>Business-type Activities</b>		Principal

## 14. LEASES (Continued)

### County as a Lessee

The County leases various buildings and vehicles and equipment as part of its operations. Significant leases comprise vehicles leased through Enterprise Fleet Management. Individual leases are entered into for each vehicle and the leases carry a term of five years, with current leases having maturities between 2023 and 2027, and the leases do not contain renewal options. The enterprise leases reported under governmental activities carry discount rates ranging from 2.00% to 8.37% and remaining liabilities of approximately \$2.7 million. The enterprise leases reported under business-type activities carry discount rates ranging from 2.66% to 5.85% and remaining liabilities of approximately \$68,000.

## **16. LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS**

State and Federal law and regulations require the County to place a final cover on its municipal landfill site when it stops accepting waste, and to perform certain maintenance and monitoring function at the site for 30 years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and post-closure care costs as a liability based on landfill capacity used each year. The \$15,379,933 reported in the Environmental Landfill Fund as landfill closure and post-closure care liability represents the cumulative amount reported to date.

The landfill is comprised of the East Side and West Side, with the West Side being the active portion of the landfill. Based upon a projected landfill usage rate of 60,000 tons per year, the estimated remaining life of the constructed west side landfill after December 2024 is 8 years and 1 months.

These amounts are based on estimates of what it would cost to perform all post closure care as of December 31, 2024. Actual costs may be higher in the near term due to final approval of certain elements by the New York State Department of Environmental Conservation, inflation, changes in technology or changes in regulations.

## **17. SIGNIFICANT CLAIMS AND CONTINGENT LIABILITIES**

The County is subject to a number of lawsuits in the ordinary conduct of its affairs. Such lawsuits and claims are not, in the opinion of management, expected to have a material effect on the County's financial condition.

## **18. INSURANCE AND COMMITMENTS**

The County purchases commercial insurance coverage and is self-insured for the deductible portion of its general liability risks. The County also funds its Workers' Compensation claim liability through a municipal workers' compensation risk pool, of which the County is the sponsoring member. In addition, the County is self-funded for its major medical, surgical, and hospital claims, which are administered by a third-party claims administrator.

**18. INSURANCE AND COMMITMENTS (Continued)**

At December 31, 2024, the County has recognized \$307,072 as part of its accounts payable and other accrued liabilities in the Self Insurance Fund representing incurred but not yet reported health insurance claims. At December 31, 2024, the County also recognized \$146,482 as part of its accounts payable and other accrued liabilities in the Self Insurance Fund representing incurred but not yet reported dental and prescription claims.

The County has also accrued a liability of \$3,165,151 for workers' compensation premiums, unresolved claims and legal costs in its self insurance fund (Workers' Compensation) at December 31, 2024. A reconciliation of workers' compensation claims is presented below.

	<u>2024</u>	<u>2023</u>	<u>2022</u>
Liability at January 1	\$ 2,808,865	\$ 2,523,082	\$ 2,364,814
Claims and changes in estimates	2,287,248	2,108,032	2,010,066

Liability at December 31	<u>\$ 3,165,151</u>	<u>\$ 2,808,865</u>	<u>\$ 2,523,082</u>

County employees are entitled to coverage under the New York State Unemployment Insurance Law. The County has elected to discharge its liability to the New York State Unemployment Insurance Fund by the benefit reimbursement method, a dollar-for-dollar reimbursement for benefits paid to County employees and charged to the County's account. There was no change in commercial coverage during 2024, and settled claims have not exceeded commercial coverage in any of the past five fiscal years.

**19. FEDERAL AND STATE FUNDED PROGRAMS**

The County participates in a number of Federal and New York State grant and assistance programs. These programs are subject to financial and compliance audits by the grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the County expects such amounts, if any, to be immaterial. Expenditures disallowed by completed audits have generally been immaterial in nature and, accordingly, have been reflected as adjustments to revenues in the year the expenditure was determined to be unallowable.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

August 20, 2025

To the Board of Supervisors of the  
County of Madison, New York

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of County of Madison, New York (the County), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 20, 2025.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**  
(Continued)

**Report on Internal Control over Financial Reporting (Continued)**

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

August 20, 2025

To the Board of Supervisors of the  
County of Madison, New York

**Report on Compliance for Each Major Federal Program**

**Opinion on Each Major Federal Program**

We have audited the County of Madison, New York's (the County) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2024. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The County's basic financial statements include the operations of Madison County Industrial Development Agency (IDA) whose federal awards are not included in the schedule of expenditures of federal awards for the year ended December 31, 2024. Our audit, described below, did not include the federal awards of the above entity as this entity conducted a separate audit in accordance with Uniform Guidance, if required.

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

**Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

(Continued)

**Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County's federal programs.

**Auditor's Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

(Continued)

**Report on Internal Control over Compliance**

A *deficiency in internal control* over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## **COUNTY OF MADISON, NEW YORK**

### **NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** **DECEMBER 31, 2024**

---

#### **1. BASIS OF PRESENTATION**

##### **Pass-Through Programs**

Where the County of Madison, New York (the County) receives funds from a government entity other than the federal government (pass-through), the funds are accumulated based upon the Assistance Listing number when advised by the pass through grantor. Identifying numbers, other than Assistance Listing numbers, which may be assigned by pass-through grantors, are not maintained in the County's financial management system. County management has identified certain pass-through identifying numbers and included them in the schedule of expenditures of federal awards (SEFA).

##### **Non-Monetary Federal Programs**

The County is awarded financial assistance programs that do not result in cash receipts or disbursements, termed "non-monetary programs." During the fiscal year ended December 31, 2024, the County distributed \$91,216,211 of medical services and goods that were received by participants in the Medical Assistance Program (AL# 93.778), and \$3,823,051 of energy assistance to eligible persons under the Low-Income Home Energy Assistance Program (AL#93.568), as listed in the accompanying schedule.

#### **2. BASIS OF ACCOUNTING**

The SEFA is presented in accordance with accounting principles generally accepted in the United States of America and is derived from the County's general ledger. Federal expenditures are recorded when an allowable cost is incurred under the applicable program and is due and payable. For programs with funding ceilings and caps, federal expenditures are only recorded and presented in the SEFA up to such amounts.

#### **3. INDIRECT COSTS**

Indirect costs are included in the reported expenditures to the extent such costs are included in the federal financial reports used as the source for the data presented. The County has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### **4. MATCHNG COSTS**

Matching costs (i.e., the County's share of certain program costs) are not included in the schedule of expenditures of federal awards.
