“After conducting multiple investigations with individuals who have tested positive, it was determined that some of them visited several locations in the past two weeks,” said Madison County Public Health Director Eric Faisst. “Anyone who visited the store during the identified time frame should monitor themselves for symptoms of COVID-19 for the next two weeks. Those symptoms include fever, cough, and/or difficulty breathing. If symptoms develop, please stay home and contact your doctor for guidance on testing. In an emergency please call 911.”

Faisst would like to remind the public that you should wear a facemask when you are out in public, and people should not be going out in public unless you have to for essential items. If you must go out, be sure to stay at least 6 feet away from others at all times and wear a cloth face mask. Please remember to wash your hands with soap and water for at least 20 seconds, or use hand sanitizer before you touch your face.

For more information please visit <https://www.madisoncounty.ny.gov/2479/Coronavirus-COVID-19> or call the Madison County non-medical COVID-19 Hotline at 315-366-2770.
