

2ND DOSE FAQ

What you need to know about your 2nd dose of the COVID-19 vaccine:

- Pfizer vaccine requires a 2nd dose at 21 days. Moderna vaccine requires a 2nd dose at 28 days. You can not get your 2nd dose before 21 or 28 days.
- 2nd doses appointments will be automatically scheduled. Your 2nd dose appointment time will be at the same time as your first appointment time.
- Please do not cancel your 2nd dose appointment. The clinic is allotted enough 2nd doses to cover those who received their 1st dose. If you miss your 2nd dose appointment you may not be able to get one. The only acceptable reason to miss your 2nd dose is if you have been placed on isolation or quarantine.
- Your 2nd dose is given at same clinic location as your first dose.
- When your body responds to the vaccine, it can sometimes cause a mild fever, headache, or chills. This is completely normal and a sign that the vaccine is working.
