RFP: MC-2015-0002

Date: April 16, 2015

Madison County PPA

Addenda 1

We appreciate your interest in the solar project being solicited by Madison County. As you may be aware, the landscape is in flux right now with the Public Service Commission's recent rulings on monetary credits with respect to remote net metered projects. Madison County has been working for some time to gather electrical data and background information for this solicitation, which would certainly be impacted by a change in rules by the PSC. It was our understanding that based on a recent stay put in place by the PSC, we are working up against a May 1st deadline for responses and movement on our project. The attached update represents our latest understanding from the PSC. While our timeframe for RFP responses was not ideal, we are making the attempt to ensure that monetary credits would be available to this project by staying within this narrow window of opportunity provided by the PSC. Our greatest desire is to receive quality informed proposals and optimal pricing. **Given the attached (Attachment A) information from the PSC and our interests, we wish to extend our RFP response deadline until Thursday April 30th.**

As a reminder, Sealed proposals for this project will be received at the Office of the Purchasing, 138 North Court Street, Building 4, County Office Building, Wampsville, NY 13163 until **Two O'clock (2:00) P.M. (local time) on April 30, 2015.** Madison County Reserves the right to reject all Proposals.
