

SOLARIZE CNY

MADISON COUNTY

THINK SOLAR IS TOO EXPENSIVE AND COMPLICATED?

Solarize CNY can help. Attend an upcoming workshop to learn about how solar energy works and how you can take advantage of our bulk discount, tax credits and grants to make solar easier and more affordable than ever.

Solarize CNY is a non-profit community initiative serving Cayuga, Cortland, Madison, Onondaga and Oswego counties. Together, we are moving our region to clean, sustainable energy.

All workshops are free and open to the public. Refreshments served.
